

## Nook and Other e-Readers

### Browse, Check Out, Download

Assumption: You have a computer with the Adobe Digital Editions software installed (*this software can be downloaded from the e-INC website, free of charge*), MS Internet Explorer, a connection to the Internet, a version of the Nook e-reader (or other brand name e-reader - **Not a Kindle**) and a USB cable for connecting your computer to your e-reader. **These steps cannot be completed using a library computer.**

1. On your computer's Internet browser navigate to the e-INC website - <http://e-inc.lib.overdrive.com> - *There is a link from the FRL website (<http://fontanalib.org>).*
2. Toward the top right side of the page, click **Sign In**.
3. On the drop-down list in the middle of the page, choose **Fontana Regional Library**.
4. Type in your 14 digit Fontana Regional Library card number. You arrive on the **My Account** page.
5. From the **My Account** page you may click the various headings to learn information about your account.
6. To begin browsing for e-books, click the **Digital Media Home** button.
7. From the **Digital Media Home** page, you may browse one of the various categories, or search for a particular title.
8. Once you find a title that you wish to download, be certain to select the EPUB ebook or PDF ebook version of the title and click **Add to eBookBag**. *We recommend selecting the EPUB ebook version, unless your device is incompatible with this version.*
9. On the next page, you are informed that you may check the ebook out for 14 days. Click **Proceed to Checkout**.
10. The next screen gives you specific information regarding the number of checkouts on your account. Click **Confirm Check Out**. On the next page, click the **Download** button. Your browser will give you an option to **Save** the ebook or **Open** the ebook. Choose **Open** the ebook. Doing so will open your ebook in the Adobe Digital Editions. From the Adobe Digital Editions you may add the ebook to your e-reader (see instruction on the reverse side of this page for transferring your ebook to your e-reader.)
11. Follow numbers 7-10 to download up to four ebooks total, for a period of 14 days.

## Nook and Other e-Readers

### Transfer eBook to Your e-Reader from Adobe Digital Editions

Assuming you have already downloaded your ebook from e-INC to Adobe Digital Editions, use these instructions to transfer your ebook to your e-reader.

1. Connect the USB cable to your computer and e-reader.
2. Open Adobe Digital Editions.
3. Click on the **Go to Library View** icon in the upper left-hand corner. In the library view, you can see all the books you have downloaded.
4. Under the heading Bookshelves (on the left side of the screen), choose **Borrowed**. Now only the ebooks you have borrowed should be displayed.
5. Click on the book you wish to transfer, drag it to your e-reader and drop it. Your e-reader can be found on the list under **Bookshelves**, on the left side of the screen. (We used two different Nook e-readers to test these instructions. One showed up as **Nook** and the other as **Media**. The name of your device may vary.)
6. Click the **Safely Remove Hardware** icon at the bottom right of your computer task bar. Disconnect the USB cable from your computer and e-reader.

### Returning Your eBook

Once you have completed reading your ebook, we encourage you to return it to the e-INC library. This helps you by allowing you to download new titles to your e-reader, and helps others by giving them another selection from our e-INC collection. Follow the steps below to return your ebook.

1. Connect the USB cable to your computer and e-reader.
2. Open Adobe Digital Editions.
3. Click on the **Go to Library View** icon in the upper left-hand corner. In the library view, you can see all the books you have downloaded.
4. Under the heading Bookshelves (on the left side of the screen), choose **Borrowed**. Now only the ebooks you have borrowed should be displayed.
5. Choose the title you wish to return by single clicking on the ebook cover. Now click on the **Item Options** drop-down icon at the upper left-hand corner of the ebook cover and choose **Return Borrowed Item**.
6. Now under the heading Bookshelves, choose your device.
7. Locate the same ebook on your device; select it by single clicking on the title. Click on the **Item Options** drop-down icon at the upper left-hand corner of the ebook cover. This time select **Delete Item**.
8. Click the **Safely Remove Hardware** icon at the bottom right of your computer task bar. Disconnect the USB cable from your computer and e-reader.
